Winston C Wingo
16863 Tracey St
Detroit, MI 48235-4024

Dear Winston C Wingo:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 1997 model year Pontiac Grand Prix vehicles equipped with a 3.8L V6 naturally aspirated engine. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- Your 1997 model year Pontiac Grand Prix, VIN 1G2WP52K9VF338104, is involved in safety recall 09047.
- Schedule an appointment with your Pontiac dealer.
- This service will be performed for you at **no charge**.

Recall
4-10-9

Why is your vehicle being recalled?

An underhood fire may be caused by drops of engine oil, from seepage or spillage, being deposited on the exhaust manifold through hard braking. If the manifold is hot enough, the oil may ignite into a small flame and, in some instances, the fire may spread to the plastic spark plug wire channel and beyond. If this occurs, there could be a fire in your vehicle and nearby property.

What will we do?

Your Pontiac dealer will replace the spark plug wire channel with new spark plug wire retainers. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 15 minutes.

There are two very important precautions you should take before your vehicle is serviced:

- We strongly recommend you not park your vehicle in a garage, car port, or other structure.
- If you notice a burning odor, you should have your GM dealer inspect your vehicle immediately. The dealer will inspect your vehicle without charge.
